POW WOW PURPLE

RIVER BLUE

SILVER VEIN

STURGEON WHITE

TURTLE

WILD ROSE

## CUSTOMER TESTIMONIALS

"I am enclosing pictures of my Kalispel gun case as it was returned to me by - Airlines. My guess is that it got caught in some type of hydraulic door in order for that much damage to occur. In any case I had two scoped rifles in the gun case at the time of the damage. Because of the severe damage to the gun case, I was concerned about whether the gun barrels were bent or otherwise harmed. I had the guns taken apart and put on a lathe to measure them, and had two test-fired. Both guns were unharmed thanks to the sturdiness of the Kalispel gun case. I just wanted to confirm what you already know... that you produce a very sturdy gun case."

— Curt E., Dallas Texas

"I have had my "Original" Kalispel Case Line bow case since the early 90's. I live on the west coast and travel the world to go bow hunting, and I've trusted my Case Line bow case to carry and protect my bows for nearly three decades. My case has withstood all of the havoc associated with airline travel. The dense, soft foam interior keeps my bows securely in place so they always arrive safe and in great condition. The Kalispel Case Line case is the working man's case, all substance and no frills. From the tough aluminum exterior to the secure locking mechanism, these cases are solid-built and made to last."

— Reggie Theus, retired NBA All Star/Global Bow Hunter
